FEATURED PROJECT

Global Fit AI — GEMINI XPRIZE Hackathon Project | May 2026 – August 2026

An AI-powered international product discovery platform designed to help users find products across international e-commerce platforms through natural-language and image-based search.

- Built an AI-powered shopping search experience focused on faster, more efficient product discovery.
- Implemented AI functionality to interpret user requests and identify relevant products.
- Developed image-based outfit search to help identify products within an outfit and locate purchasable alternatives.
- Project: devpost.com/software/global-fit-ai
